1. A large military airfield is being built 120 kilometers from Warsaw between the town of Leczyca (Q 63/O 77) and a forest in Leczyca County. Several villages, including Zduny and Polczyska, were evacuated to create room for the field; residents of the villages were sent to Western Poland.
  2. Hangars and storage buildings (magazyny) are now being built. The area around the entire airfield is under military guard; the entire area, including the forest, is off limits to the public. Work at the airfield proceeds at a fast pace. Many covered trucks enter the forest daily; the Leczyca railroad station appears to be very busy. Polish soldiers are employed on the project under the direction of Soviet specialists.
  3. A great variety of planes are already landing on the existing runways. The majority of them are jet-propelled, but their type is unknown.
